

The Web Timetables contain all timetable activity information relevant to both students and staff.

Users can access key timetable and booking information relating to modules and teaching rooms.

Students with timetable queries should contact their school in the first instance.

How to view a Timetable

From the University of St Andrews homepage

- Click **Current Staff** (*Fig. 1*)
- Click on **Timetabling** under the Learning and teaching heading (*Fig.2*)
- Click on **Current Timetables** or either **Timetable Information** under the Resources heading (*Fig. 3*)

Timetabling and room booking information

Welcome to the university's timetabling information homepage. This area contains all timetable activity information relevant to both students and staff.

From this page:

- Staff will be able to access module and classroom timetable information.
- Staff will be able to access the university's online room booking system.

Timetable information

- 2012-2013 Timetables**

Users can access key timetable and booking information relating to modules and teaching rooms.

Students with timetable queries should contact their school in the first instance.

Online room booking

Staff should use this facility to make ad-hoc booking requests only.

Staff should note that Reservations (reservations@st-andrews.ac.uk) should be contacted for booking requests falling on dates outwith the university's standard semester periods or after 6pm.

<http://timetable.st-andrews.ac.uk/wrb1213>

Vacation bookings

The online booking system now operates throughout the calendar year. However, during vacation periods a significant number of rooms are controlled by Conference & Group Services, which means an online booking search may not always show availability for the rooms you may be interested in. The attached document confirms the controlling status of all rooms, for all times of the year. In any instance where a room and date is labelled 'CGS', then Reservations (x2499) should be contacted for booking information [2012_3 Room Booking Control Sheet](#) (Excel, 167 KB)
